PremiumSanitary

Professional Sanitary Products

ACTIVE SUBSTANCE

75% v/v denatured ethanol 96% (CAS No. 64-17-5, 0.04% Hydrogen Peroxide 3% (CAS No 7722-84-1), 0.04% Glycerin Medical and a natural polymer agent for the gelling side.

PHYSICO-CHEMICAL CHARACTERISTICS

Appearance: liquid

Colour: Colourless

Smell: Without perfume

Density: 0.868

Storage: keep away from light and at a temperature between +5°C and +25°C.

Shelf life: 2 years

pure pH: between 6,5 and 7,5

PRECONISATIONS

The hygienic treatment and disinfection of the hands by friction is recognized more effective than the simple hygienic washing with soap.

Our **CLEANER GEL** is designed for hygienic treatment or surgical disinfection of the hands by friction for anyone who has to work in aseptic conditions.

Hygienic treatment of the hands (reduction or elimination of the shipping flora):

Rub hands with 3 ml of CLEANER GEL for 30 seconds until completely dry.

Surgical disinfection of the hands (removal of the transiting flora, reduction of the resident flora):

After a simple hand wash, carefully rub the hands and forearms with 3 ml of CLEANER GEL for 45 seconds. Repeat the operation a second time.

PACKAGING(S)

PSSLCG30 : 30ml bottle with serving capsule

PSSLCG100 : 100ml bottle with serving capsule

PSSLCG500P : 500ml bottle with dispenser pump

PSSLCG1 : 1L bottle with 42mm cap

PSSLCG5 : 5L jerrycan with 42mm cap

Unit packaging, cardboard and pallet. Contact us for our decreasing prices and distributor.
